

MONEY IN MOTION

July 13, 2022

It all depends on your time frame...

- *“A picture (a chart) is worth a thousand words”*, especially at present with regards to the US Dollar and the Euro.
- The US Dollar and the Euro are stretched to extremes, only depending on where one “starts the meter”.
- To that point, see the simple, comparative charts herein, over various time frames.
- As to the here-and-now time frame, the US Dollar is “too far, too fast” by our work, and we are sellers... while the Euro is “so bad, it’s good”, and we are buyers.

Trade well,

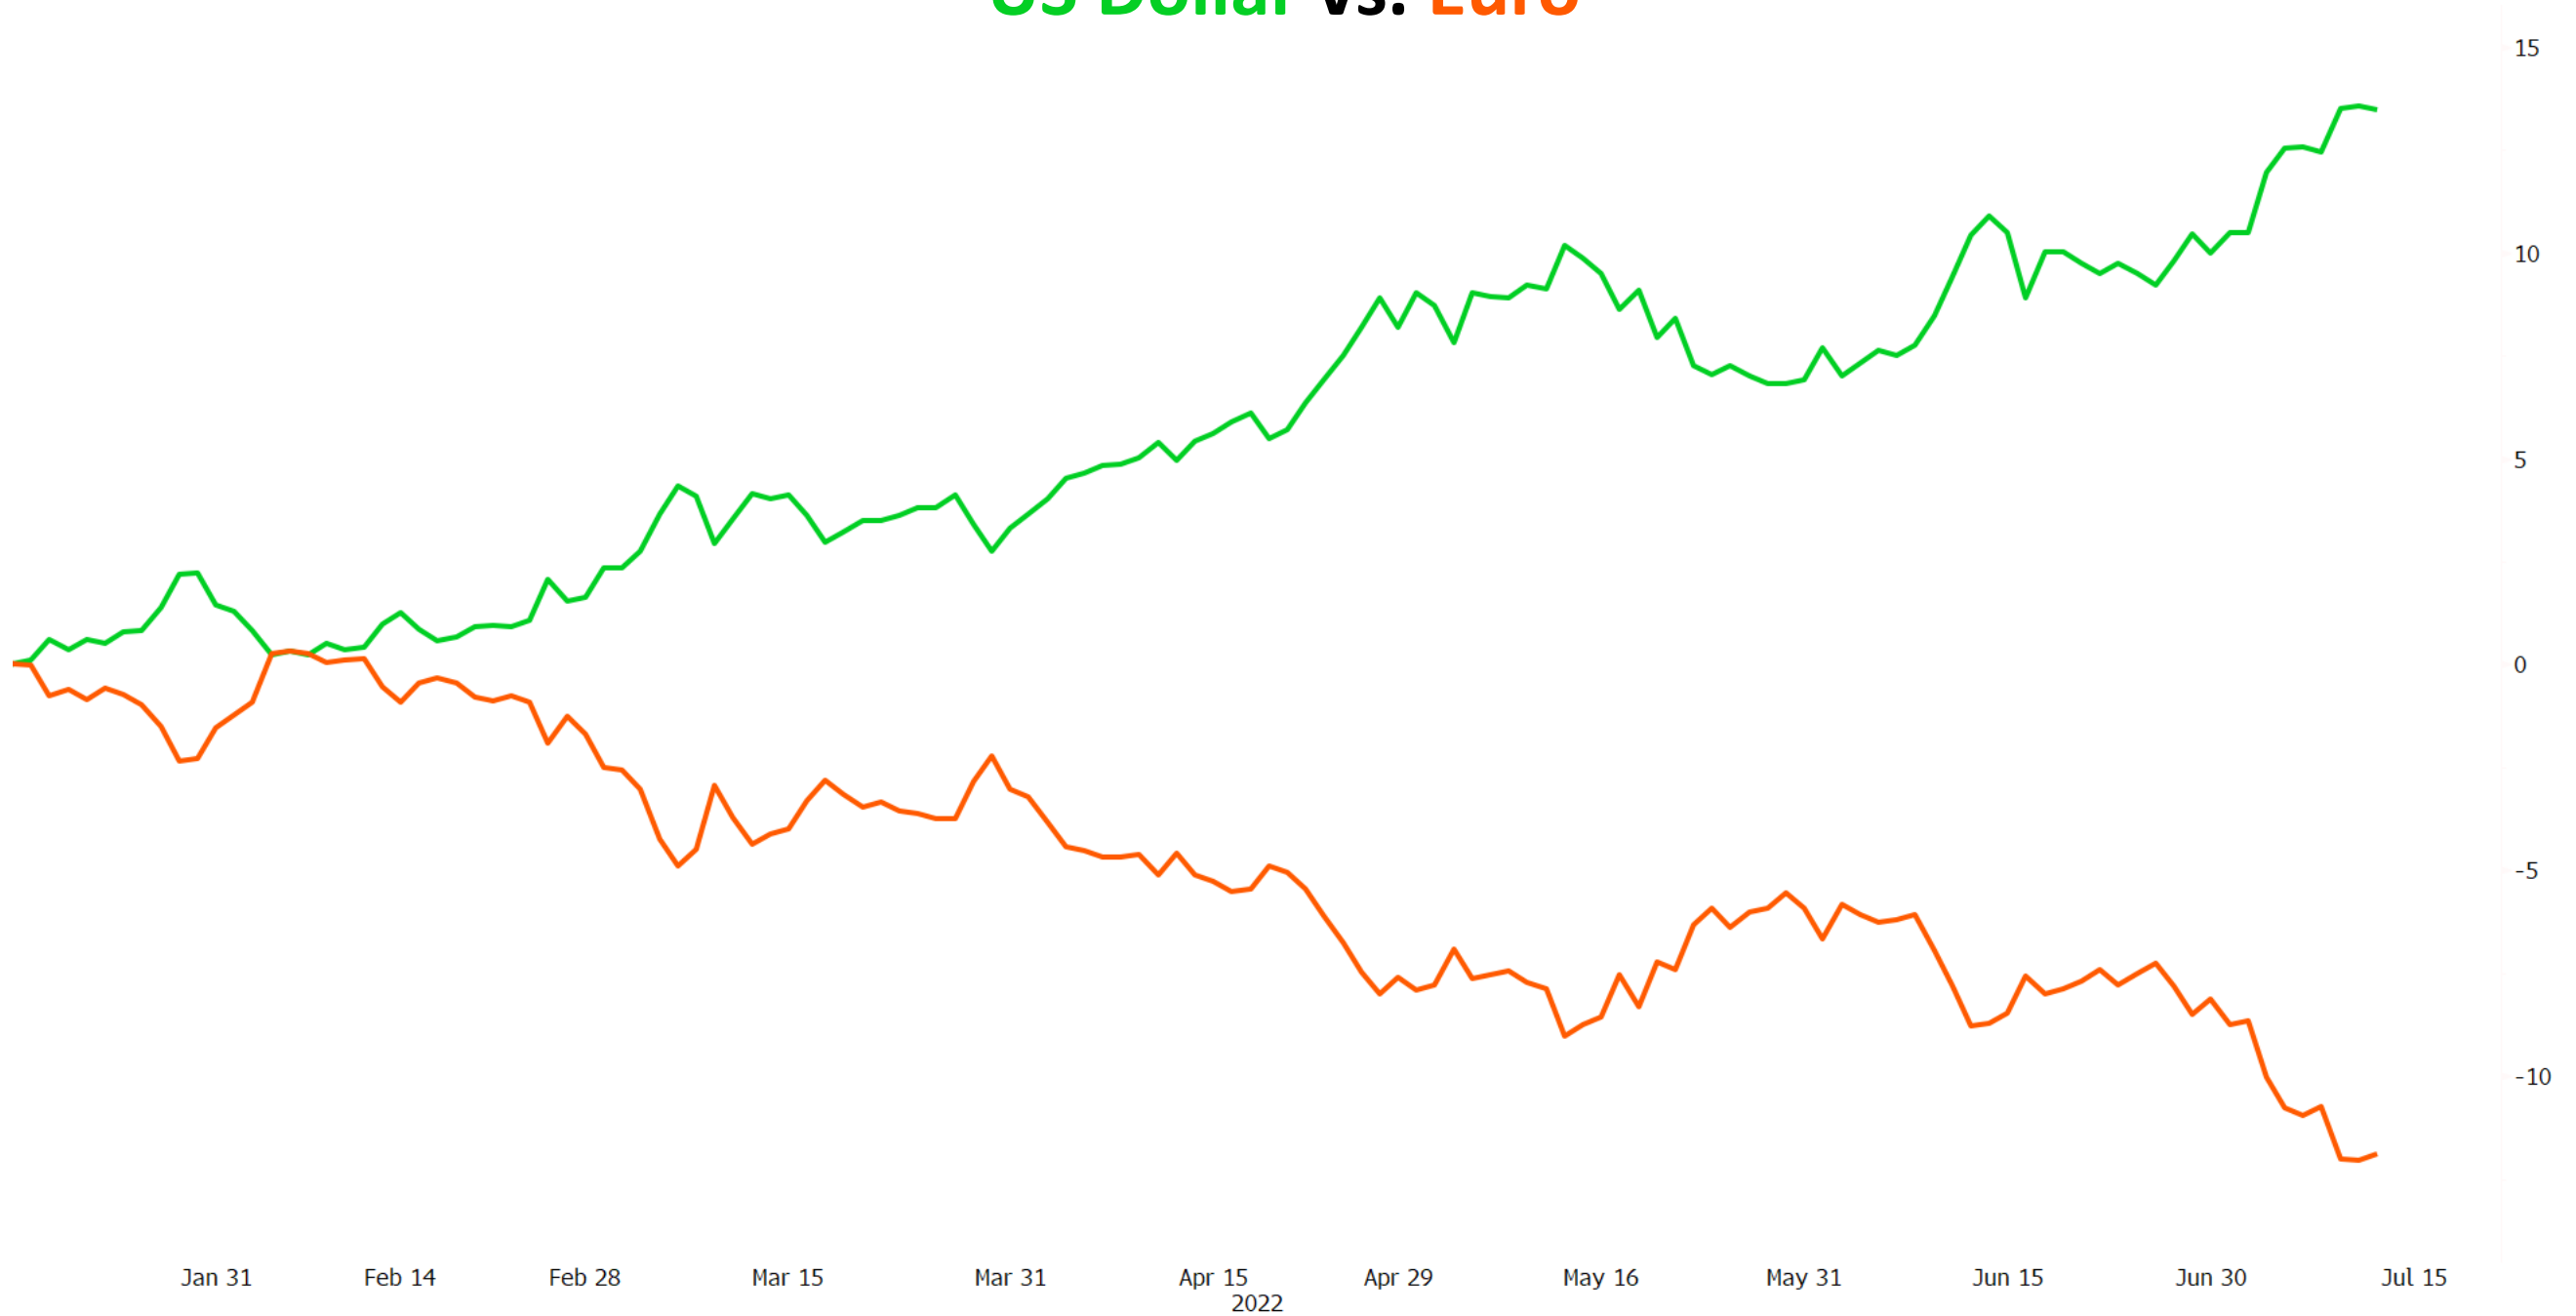

-Carter
