

MONEY IN MOTION July 18, 2023 **Real 10-Year Treasury Yields**

Four identical charts for your consideration, where “the lines draw themselves”.

We have been, as readers will know (and remain in) the camp that rates peaked long ago (last Autumn when the Dollar peaked) and that ultimately rates are headed considerably lower.

Time will tell.

For now, the spike highs of Friday, October 21, 2022 in 5-year, 10-year and 30-year yields, remain the highs, as all will know.
